ASSOCIATE OF ARTS

AGRICULTURE
ASSOCIATE OF ARTS

Transfer tracks in the ANRP are classified as Associate of Arts (A.A.) in Agriculture degrees. An A.A. in Agriculture degrees is intended for those students planning to transfer to a related program of study at a four-year institution following the completion of their A.A. degree at SCC.

To transfer into a baccalaureate or 4-year degree program in agriculture as a junior, students need to complete a minimum of 60 credit hours. Students are strongly encouraged to complete an A.A. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission.

Due to variations in expectations of partner universities, students are advised to notify academic advisors of the four-year institution they are planning to transfer to upon their arrival at SCC. This will play a role in choosing course work. Students should plan their transfer programs with an advisory and program faculty member. The ANRP @ SCC currently has established, working relationships with the following local, state and regional 4-year institutions:

- Southern Illinois University at Carbondale
- University of Illinois at Urbana-Champaign
- Murray State University at Murray, KY
- Southeast Missouri State University at Cape Girardeau, MO

Articulation efforts with these and other universities are continually in progress. It is critical that students explore their post-SCC destination and their requirements to enter that university. Students should consult with an academic advisor no later than the completion of their first semester at SCC.

CAREER OPTIONS

What can I do with a degree in an Agricultural related discipline?

You can have an exciting and successful career in one of the following areas in Agriculture:
