The SCC webmaster certificate prepares the student for entry-level positions creating and maintaining webpage designs. Students will design and publish webpages created with basic html tags and incorporating web design utility software.

Created webpages will include scripts, applets, graphics, video and sound. The student will also gain “hands-on” experiences with E-commerce and web server administration.

Webmaster
Earn a median yearly salary of $69,400 in Illinois, compared to $68,600 nationwide. The employment outlook is +15% in Illinois, and +19% in the US by 2014.

COM 178 Macromedia Dreamweaver
This course provides the student with an in-depth study of creating their own web site using the Macromedia Dreamweaver software. Students will create web sites using forms, tables, frames, cascading style sheets, templates and various different extensions used to add functionality to Macromedia Dreamweaver.

COM 132 Macromedia Fireworks
This course is the creation of web pages with the inclusion of animated graphics and minimized download times will be explored using the Macromedia Fireworks web-producing software in this course. Students will complete hands-on projects such as animating graphics for web pages, adding hotspots to web graphics, adding rollover buttons to web graphics, and displaying options in web pages using animated pop-up menus.

COM 236 Web Page Authoring w/ FrontPage
FrontPage Editor will be utilized for creation, editing, and testing of web pages. Students will enhance web pages with hyper-linked text, images, tables, and forms which incorporate fields with radio buttons, drop-down lists, check boxes, and scrolling text.
