Welding

Job Responsibilities:

- Welders lay out, position, align, and secure parts and assemblies prior to assembly, using straightedges, combination squares, calipers & rulers.

- Welders weld separately or in combination, using aluminum, stainless steel, cast iron, and other alloys. They select and install torches, torch tips, filler rods, and flux.

- The 6,200 square foot technical classroom and lab facility is located southwest of the main campus and includes a 2,400 square foot welding lab and a 1,300 square foot sheet metal training lab.

This is the program for YOU!

In the Welding Program at Shawnee Community College, you will gain necessary knowledge and skills appropriate for employment in the areas of electric and oxyacetylene welding. Students will learn the basics of mig welding, tig welding, arc welding, gas welding & cutting, and maintenance welding. Students completing this program will have sufficient preparation to become certified welders.
Credential Opportunities at SCC

- One-year certificate for Combination Welding.
- Less-than-one year certificate for Arc, Gas, Tig, Pipe, and Mig Welding.

Possible Career Opportunities

- Aluminum Welder
- Fabrication Welder
- Fabricator
- Fitter/Welder
- Maintenance Welder
- Mig Welder
- Sub Arc Operator
- Cutter
- Tig Welder
...and more!

Earning Capacity

Welders earn an average salary of $35,700 (Based in Illinois.)
