For Immediate Release

(Ullin, IL) On March 22, 2021, The Board of Trustees of Shawnee Community College held a special meeting on the main campus to review and accept the results of the FY20 Audit.

The audit indicated the financial statements were accurately and fairly stated. The College received a “clean” audit.

The board members also reviewed the FY22 College Catalog. The college catalog is released annually and includes class options for incoming students and program pathways for completion.

The final board topic was considering the purchase of new equipment to incorporate into the SCC Automotive Program. The College’s Automotive Technology program has a curriculum requiring students to perform tasks associated with restoring an automobile’s steering and suspension systems to their proper alignment. To adequately prepare students for the workplace, the College incorporates various tools and machines used by technicians in the workplace to prepare them for employment. The board voted to purchase a Hunter Aligner and Scissor lift, which will provide students with the appropriate learning experience for successful automotive industry training. The college accepted bids for the new equipment as required by the Illinois Community College Act. The equipment cost of \$49,986.17 will be paid for through Perkins Grant funding.

The next regular meeting of the Board of Trustees will be Monday, April 5,
at 5:30 pm in the River Room for the Trustees and via Zoom for the public.
