- Appears processes are not captured.
- Items falling through gaps.
- People leave College and so do the processes.
- Need to develop a check and balance for courses processed.
- Curriculum and Instruction to review forms that are currently used.
- Need for creation of tenure procedures. (63, 05, SC)
 - There is a need for consistency.
 - Need accountability but faculty need to know their responsibilities.
 - Tenure expectations, we need to start at “Why”, “Who are we as faculty members”, What makes a good faculty member”.
 - Experts
 - Care
 - Committed to our students, as examples.
- What does that mean / translate to:
 - Staying current.
 - Experts in our field.
 - Need to capture our processes in that field, job description, interview processes, etc.
 - Pull this all into our tenure processes.
 - Interview questions and responses can be mirrored from our tenure processes.
 - Professional development, establish forms of measurement.
 - Tenure is sometimes voted for, not necessarily objective.
 - Do we like them or not?
 - Do they deserve.
 - Courses may need to be taken and completed, within a timeframe – if unable to complete they risk not reaching tenure.
 - Review qualifications.
 - Consider situations – Pandemic, harder to evaluate skills, the bar has shifted or no longer exists.
 - What you know, articulate how they met student success should be evident.
 - Contract also plays a part.
- Policy needs to be obtainable and it needs to protect the College, from saying it was a subjective choice.
 - Meets the need of the College and Academic Affairs.
- Looking for writing a good policy, should be more general, guidelines and procedure more expect to see.
- Instead of jumping into the tenure process, look at what makes us exceptional faculty, our commitment to student success.
- Some examples of qualities for tenure:

| | | |
|---------------|--------------|--------------|
| Knowledgeable | Passionate | Caring |
| Service | Approachable | Professional |
| Dedicated | | |
- Needs to represents who we are, what matters, pull it down to other places.
- Possibly start as a faculty meeting, open to suggestions.
- Able to put items on an agenda, or table to meet next time, comfortable talking with, understanding will not happen overnight.
- Look at contract.
- Articulate our values this year, may not be able to review all policies, it gives us space/time.

- We really have the flexibility to make it our own.
- Provides us with an idea, to use it to inform other processes, or course evaluations.

VII. Other Business / Questions

- New software to review: Smart Evals, soft start, possible summer of 2022, roll out in the fall.
 - Smart Evals will possibly start with existing questions and learning outcomes.
 - Process may be able to be used to support evidence, show expertise in an area.
 - Share with faculty, possibly to help engage students.
- 10 Day Report was put to table.
 - Same across system.
 - No flexibility making 10 day verifications.
 - Confusion on 10 Day Report.
 - It would be nice if it was an initial progress, not a grade.
- System is listed, and can be updated as needed.
- Colleague was brought to table.
 - Colleague was implemented in 2017.
 - Training was done, but a lot of people who were trained are no longer at the College.
