IV. **Action Item**

- a. Allied Health (Kayla Sauerbrunn)
- b. BOT (Ruth Smith)

230 Course change 1.2 to 1.1, but unsure of why course change was made.

Answer: Shawnee College is working for articulation with universities, we want to make sure it is transferrable and available as a dual credit course.

SIU, SEMO, Murray State, etc.

1.1 courses are generally recognized as a transfer course.

1.1 is recognized by any 4-year school in the state of Illinois.

Next step in process – Form 13 has to be sent to University partners.

- Three (3) members/Universities need to approve.

Shawnee can then change from a 1.2 course to a 1.1 course.

Lori Armstrong made a motion to take Business 230 from a 1.2 course to a 1.1 course with a second from Roberta Christie. All voted in favor and the motion carried.

- Designed to be shared governances.
- Represent groups.

Able to discuss and make recommendations.

Recommendation Business 230 course (example), this does not flow upward, it goes directly to ICCB.

- Guidelines and policies flow upward.
- Revised course descriptions, operational pieces to work through, keep the College moving forward.

New Business, start reviewing existing forms and processes.

- Processes not always articulated.
- Not always successful in locating where stored.
- Assessment of all forms used for Curriculum Committee.
- Sometimes, when people leave processes fall through the cracks, etc. (Many hands on a process, need to complete and document).

Academic Affairs council met today, discussed some key priorities.

- Go through and develop a process for CTE programs.
- Small team will work with Dr. Mason to develop a program and process.
- Small team meaning, 3-4 individuals, will work closely with Institutional Research.
- Ideally people would be from committee, but not necessary.
- Dr. Mason will be the point of contact.

Revisiting CTE Program Development / Standards and Process.

- Revision to syllabus templates.
- Often rolled over from time-to-time.

- Hard to locate, its “everywhere but nowhere”.
- Creation of a master syllabus.
  - Defines class time / lecture and how many hours in lab.
  - Should come up to credit hours.
  - Example, in week one course will cover..., in week two course will cover...
  - Articulates major components.
  - Start with fundamentals.
  - Then project, how many hours needed.
  - Build it out.
- Start with existing template, no preference what called, Master Syllabus or Master Course Outline.
- Need revisions, in the event a partner requests, or a transfer audit.

Question asked, template is that ADA compliant? – Unknown at this time.

Separate master does not have to have semester,

- Course objectives.
- Course competencies.

IAI is very restrictive regarding courses meeting requirements.

Documents and Forms is located on SCC.

Smaller Team was created / volunteered.

- Scope can be revised how many faculty / non faculty participating
- Right now 7 faculty / 7 staff, on committee.
- Thoughts, maybe we can recruit one (1) more faculty member, or look for a volunteer.
- Samples will be provided to smaller group.
