Dr. Taylor clarified the Team's focus. He reviewed the HLC Criteria (3C5, 5B1, and 5C5), and reviewed the Strategic Plan Goal 3.2 A., B., C., & D.

Dr. Taylor suggested we determine which employee talent, technical capability, or leadership skill we want to begin researching. We need to identify what has been done in the area, what were the outcomes, and what is lacking.

A few of the team members recommended customer service as an area to begin researching. An email/document will be sent out to the PD Team asking for input about an area to begin research.
